

OFFICERS GIVEN KILLING DETAILS

Turley Shows How He Stuffed Body of Woman Down Pipe

DENVER, Colo., June 20.—Orville J. Turley, who, according to the police, confessed to having slain Mrs. Emma Wise, 42-year-old rooming house keeper, by strangling her, Monday was taken by District Attorney Philip S. VanCise and two detectives to the scene of the slaying at 4414 West Thirty-sixth avenue. According to VanCise, Turley showed the officers how he killed his victim and stuffed her body down a furnace pipe.

Mrs. Wise's father, C. H. Goodlander, lives in Dubois, Pa. Mrs. Wise came here from Pennsylvania less than a year ago.

Turley's attorney, who said he was telegraphed his brother, C. P. Turley of Van Buren, Mo., of Turley's arrest. Snaveley said Turley was born and reared in Texas and comes from a prominent Fort Worth family. He declared Turley's father and step-mother and another brother live near Fort Worth.

Snaveley said Turley is an expert telegrapher and has been in charge of various telegraph offices throughout the west.

Despite the fact that he confessed early Sunday morning to strangling Mrs. Wise to death, Turley pleaded not guilty to the formal charge of first degree murder when arraigned in criminal court here Monday afternoon. His plea was accepted and his trial was set for June 25, with a proviso that, at that time five days additional would be permitted him if necessary, to prepare his defense. Turley's attorney indicated that he would later ask for a court order to permit Turley's examination by alienists to determine his mental status.

Turley's arraignment was hastily executed and he was heavily guarded.

BASEBALL

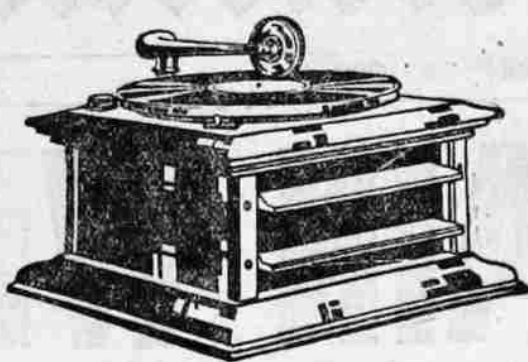

CHICAGO, June 20.—(By The Associated Press.)—Babe Ruth today was suspended for three days by President Ban Johnson of the American League for the altercation in Monday's Cleveland-New York game which resulted in Umpire Dineen putting the homerun slugger out of the game after he had disputed a decision on Numanaker of Cleveland at second base.

FLIVVER KING MISLEADS U. S., REPORT AVERS

Doesn't Guarantee to Make Fertilizer At All, Committee Says

WASHINGTON, June 20.—Henry Ford's offer to purchase and lease the government's power and nitrate projects at Muscle Shoals, Ala., was attacked today in a report to the house prepared by Representative Kearns, Republican, Ohio, and signed by Representative Morin, Pennsylvania; Parker, New Jersey; Crowther, New York; Frothingham, Massachusetts; and Ramsey, Pennsylvania, all Republican members of the house military committee. The report declared dissatisfaction with opinions already presented to the house by other members of the committee and announced that the signers were determined to "tell the people the real facts about Muscle Shoals and the so-called Ford offer."

Representative Kearns said Representative Parker and Frothingham signed the report although they previously had endorsed another minority opinion. He expected two other committee members would sign later, he said, making a total of eight Republican signatures on the report.

Declaring the belief that the country little understands what it is that Mr. Ford is offering to do, or what, if anything, "he is offering for this great plant," the signatories first denounce what they describe as "one of the most insidious propagandas that the nation has witnessed for many a day."

ADVOCATES MISLED, CLAIM.
Many of the Ford advocates, the report says, are honest and conscientious, but have been misled as to fact of the offer made. In this connection, it points to the provision by which fertilizers would be manufactured and says "that despite persistent reports that he will compel the fertilizer manufacturers of the country to sell their product at one-half of what they are now selling it," Mr. Ford "does not agree to make fertilizers at all unless he can make them with a profit to himself."

"HOLLOW PROMISE."
The committee declared that "this is a hollow promise made to enlist the support of the farmer and not founded on any fact either manufactured or existing outside the contract" and charge that propagandists fail to tell the people that "the principal business of Mr. Ford should be to get this plant to produce fertilizer, which he would be allowed to sell at any price that he might see fit."

The only thing that is kept before the public, the report continued, "is that he is to make fertilizer and sell it cheaply to the farmer, only charging for himself a profit of 8 percent on the production. No one has ever suggested how he could make fertilizers and sell them cheaply or what means he would employ. The claim is made and congress and the country must take the statement as absolute truth or be forever condemned by this crowd of wicked propagandists."

APPEAL TO JOBLESS.
Propagandists also have attracted the unemployed, the report says, adding that they "do not only try to thus bring the sympathy of the farmer, but try to bring the attention of the unemployed by painting a picture of the great activity that is to be started overnight at Muscle Shoals where they promise a million men will be given employment."

After explaining their attitude in opposition to the Ford offer the committee members declare they are not "believers in fables" nor have faith to "believe in the pranks of fairies," nor do they think that Mr. Ford is the reincarnation of Aladdin "plus his lamp."

The properties for which Mr. Ford offers the government \$5,000,000, the report says, already have cost the government \$35,487,990. It declares the amount offered seems wholly inadequate when it is remembered that Mr. Ford could immediately dispose of the Gorges plant for \$2,500,000. Power company for \$2,500,000 and thereby obtain the "Waco quarry, nitrate plants Nos. 1 and 2, with all the innumerable railroad engines and steam freight cars and other surplus concrete mixers and other surplus property that could be readily sold for several additional millions."

A suggestion has been made in England to color the highways with some colored chemical so that they will be more easily followed and the glare on the eyes will be less.

"Manna" milk, from the soya bean, is now being made in Vienna at one-sixth the cost of fresh milk.

Pork Shoulders

This week our stores have a generous supply of rolled smoked shoulders to offer at the unusual price of 26c per pound. These shoulders are boneless rolled tied and cured the same as ham. They weigh about 8 pounds and are just right to slice and fry or bake and slice cold. Include one on your order Wednesday morning.

AX SLAYER GIVEN LIFE PRISON TERM

JACKSON, Mich., June 20.—George Straub, confessed slayer of Alice Mallett, pleaded guilty to first degree murder in the Jackson county circuit court this morning and immediately was sentenced to solitary confinement at hard labor for life in Marquette prison.

Miss Mallett, who was matron at a girls' home, was murdered about 10 days ago, having apparently been attacked with an axe. Her head was crushed and her body mutilated in a night attack as she was en route to her home. Her parents live in Ontario, Ore.

GIRL LEADER OF REVOLT ESCAPES

DAMASCUS, Syria, June 20.—Nazir-Abd, an Arab girl, who took a prominent part in fomenting the revolt against French rule, and who was sentenced to prison for life, has escaped. Stern measures adopted by General Gourard, French high commissioner, have somewhat diminished the intensity of the reign of terror which has gripped Damascus, Aleppo and Hama during the last few weeks following the visit of Charles R. Crane. Leading merchants have already declared a general boycott against all French goods and are withdrawing all money deposited with French banks doing business in Syria.

MULE HELD MORE DEADLY THAN PLANE

CHICAGO, June 20.—The number of deaths to passengers riding in air-

planes is not high, the investigation committee was told Monday when a resolution providing for an ordinance to prohibit "gypsy" pilots was up for consideration.

Ralph C. Diggins, an aviator, assigned to Ashburn field, told the committee that in the past year only 14 persons out of 275,000, who have flown 7,500,000 miles, have been killed in airplane accidents.

"There are more people killed by mules in Missouri than by airplanes in the country," Mr. Diggins said, "frustrated of legislation to prohibit, stopping the engines."

"The Three Musketeers" was advertised at the local picture theatre. The boys were gazing at the notice. "The—Three—Mus-keeters," said one.

"One of them animal films," said another, "come away!"

The "Lobes," a 300-ton steamer recently traveled 6527 nautical miles, the journey occupying 25 days, without stopping the engines.
